

## THE GB54. PRACTICAL PERFECTION.

The GB54 is a perfect fusion of classic style and modern technology. Its elegant form is sculpted by over sixty years of experience in building luxurious, long-distance cruisers. Its class-leading performance and efficiency rest upon a hull that was inspired by the underwater geometry of ocean racing yachts.

Add to this the ingenuity of its ergonomics and you'll find the GB54 extraordinarily light and spacious yet easy to manage and handle with only one or two pairs of hands on-board.
