

THE GB60. TIME MACHINE.

The launch of the GB60 marks the moment when the past caught up with the future - our history of style and opulence was re-imagined with state-of-the-art manufacturing technology. The result is a long-distance cruiser that is the most fuel efficient in its class, capable of speeds of up to 36 knots and with a cruising range of over 2,000 nautical miles at 10 knots.

Exceptionally comfortable on board while uniquely comfortable on the water, the GB60 is truly a game changer.
