

## THE GB85. A GLIMPSE OF THE FUTURE, A NOD TO THE PAST.

This vision of beauty and perfection is a computer-rendered illustration of the yacht that will soon rewrite the rules of long-distance cruising.

Behold the Grand Banks 85.

The GB85 is not just a bigger Grand Banks. It's a whole new class of boat.

Technically, at just over 87 feet, the 85 has inched into the 'Superyacht' category. But as well as breaking this class barrier, our exquisite new vessel is set to break every record for performance, efficiency and range in any category you care to mention.
